Anling Health

Plan your visit costs

A one-page checklist to use when speaking with your chosen office

Start with the applicable visit fee, then ask about each additional service. This worksheet uses Anling Health's published fee list; it is not a package price, an insurance estimate or a booking confirmation.

Published self-pay item	Listed fee
New-patient visit	$100
Follow-up visit	$88
EKG	$55
Laboratory work	Quoted separately

Ask these questions before your appointment

1. Which visit fee applies to the appointment I am arranging?
2. Are the specific tests, forms or procedures included or charged separately?
3. Will an outside laboratory send a separate bill for collection or analysis?
4. Will reviewing results require another appointment, and what fee would apply?
5. What payment is due at the office, and what might be billed later?
6. If I have insurance, is this office in my specific plan and what should I verify with my insurer?

Your notes from the office

Office / provider: _____

Visit fee and separate charges: _____

Quote date / who to contact: _____

Keep this completed worksheet for yourself. Confirm current prices, required orders, appointment arrangements and any additional charges with the office.
